SPECIAL NOTICES. Mental Depression. Mental depression is a sympathy. It is subject of frequent jests, and is often laughed at, it is not easy to laugh the patient out of the belief that his ills are all real, for it is a stant fear, anxiety and gloom. The external senses as well as the mental faculties, often manifes symptoms of degrangement. Noise, as of falling water, and ringing in the ears are complained of, while black specks and flery sparks frequently flit before the vision. Admonitions like these should not be disregarded, as they may, if neglected, terminate in insanity. The seat of the disease is in th orain and nervous system, and to control the malady it is necessary to use a powerful tonic and al-terative, which will correct and tone those organs rithout inflaming the brain. This is the secret of he success of HOSTETTER'S STOMACH BUT TERS in cases of this kind, for which it is the safes as well as the best of restoratives. In fact it is the only pure and reliable tonic stimulant known. Many nestrums, purporting to be tonics, are puffed up from time to time in the newspapers, but the suf-ferer had better let them alone. Hostetter's Stom-

ach Bitters has proven itself, by many years of trial, to be in every respect what it is represented to be. ITCH! ITCH!! ITCH!!! SCRATCH! SCRATCH!! SCRATCH!!
